Specification.

1. The wood to be used for burning charcoal must be of hard variety such as, Jolly, Thopla, Devadari, Honne, Chigari, Hinddarane or some other approved kind.

2. The charcoal prepared out of soft wood and containing small pieces, is liable to be rejected or paid for at a lower rate at the discretion of the Officer in charge.

3. The Superintending Engineer or his representative will inspect the charcoal immediately after it is weighed and stacked and any quantity found unfit for work will be rejected which the contractor shall arrange to remove at once from the stacking yard.

4. The contractor shall arrange to watch the charcoal brought to site till it is weighed, stacked and accepted by the Superintending Engineer or his representative. The contractor or his accredited Agent must be present at the time of measurement but payment will not be made till the contractor signs the bill in token of acceptance.

5. The quantity of charcoal to be supplied from the date of signing the regular contract bond up to 30th November 1920 is 95 tons per month, a ton being equal to 2,240 pounds, and the quality shall be such as a ton of charcoal shall be, when dry, not more than 110 c.ft. in volume.

6. Should the contractor fail to supply the stipulated quantity of charcoal in two consecutive months, the Superintending Engineer can order for collection by a separate agency at the risk of the contractor or cancel his contract crediting the whole or part of the reserved amount to Government.

7. A reserve of Rs. 5 per cent will be withheld from the contractor's bill and it will not be paid till the accounts are finally settled.

8. The Superintending Engineer or his representative is at liberty to manufacture charcoal by other agencies from the trees in tank bed or other Government trees within the area of the Krishnarajasagara Works or elesewhere.
